

ASHI Training Centers & NTSI Affiliates

Exceptional Programs | Exceptional Opportunities

Help drivers of company cars and passenger vans take responsibility for roadway safety and reduce their risk of a serious employee injury and liability claim. As the number one training program for collision prevention, NTSI is proven to reduce collisions by 22% and traffic violations by 63% and offers unparalleled protection for you and your employees.

NTSI's Online Collision Prevention Programs

Our online collision prevention programs are the simplest and most cost effective way of improving driver safety. Our interactive courses identify specific tendencies, offer strategies for improvement and challenge drivers to develop a plan for improving their driving. Company driver and passenger van safety programs available.

SAFER Driver Challenge:

- Explore the root cause of crashes
- Identify personal driving style and strategies for improvement
- Ride along as a professional driver shows how to respond to common situations
- Review defensive driving technique in a fun game format
- Duration: 1 Hour

NTSI Online Course.

Van/High Profile Vehicle program (supplemental to SAFER Driver Challenge program):

- Identify with others who share the road
- Become more attentive
- Create a plan for improvement
- Analyze strategies for avoiding collisions
- Duration: 1 Hour

DESKTOP REQUIREMENTS: Internet connection, Computer 233MHZ, 64 MB RAM , 600x800 pixel monitor, MS Internet Explorer, Flash 7.0, sound card and video drivers
